HEARTPLACE PATIENT PRIVACY NOTICE SUMMARY

Protecting your confidential health information is important to us. Certain federal law referred to as "**HIPAA**" protects the confidentiality of your health information (generally referred to as "**Protected Health Information**" or "**PHI**"), and we take it seriously. This summary of our **Notice of Privacy Practices** ("**Notice**" or "**Privacy Notice**") has been prepared to provide you with a brief description of certain of the key provisions of the Notice regarding how medical and other personal information about you may be used or disclosed, and how you may obtain access to your information and its disclosure. For a more complete description of our privacy practices under HIPAA, please refer to the attached Notice.

What is Protected Health Information (PHI)?

PHI is information created or received by HeartPlace and transmitted or maintained in written, electronic or any other form, that relates to your past, present or future health condition, the provision of healthcare to you, and/or information about payment for the provision of your healthcare, and, which may identify you or could reasonably be used to identify you.

How may my PHI be used or disclosed?

HeartPlace may use or disclose your PHI to carry out your 'Treatment' (provision, coordination or management of your healthcare or related services), 'Payment' (obtain payment for your healthcare services, including activities that may be required by your insurer(s) to obtain approval for payment), or for other 'Health Care Operations' (other functions that HeartPlace performs in connection with providing health care, i.e., quality assessments, training of medical students, credentialing, auditing and financial reporting). Use or disclosure of your PHI pursuant to the Notice may include electronic transmittal or disclosure. HeartPlace also sends PHI to a Health Information Exchange (HIE) to allow for information exchange for information that may be relevant to your future care i.e. in an emergency situation participating facilities and physicians can access your information for your treatment. In addition, your prior prescription information will be obtained through SureScripts to assist us in providing you treatment. You can opt out of the HIE and of SureScripts by completing the appropriate forms available when you ask your HeartPlace office staff.

When might HeartPlace use or disclose my PHI without my authorization?

HeartPlace is not required to obtain your authorization or notify you when it uses or discloses your PHI for your treatment, to obtain payment, or for other health care operations as discussed above. In addition, there are some limited exceptions where the law allows your PHI to be used to promote the Government's need to ensure a safe and healthy society. In some cases, you may be given an opportunity to agree or object before the use or disclosure of your PHI. In all cases, HeartPlace will make every effort to ensure that it meets necessary prerequisites and will not use or disclose your PHI more than is permitted under the law.

What Are My Rights Under the HIPAA Privacy Standards?

Patients have certain rights under the HIPAA Privacy Standards, subject to certain limitations:

- You have the right to request restrictions on certain uses and disclosures of your PHI by HeartPlace.
- You have the right to request that we communicate with you in a certain way. We make every effort to honor your reasonable requests for confidential communication.
- You have the right to read, review and receive copies of your health information.
- You have the right to request and obtain an accounting of disclosures HeartPlace has made of your PHI.
- You have the right to request an amendment to your PHI. (HeartPlace reserves the right to deny requests to amend PHI. For example, if the information is accurate, or if the information was not created or is not maintained by HeartPlace.)
- You have the right to request a copy of the Privacy Notice.
- You have the right to file a complaint if you believe that HeartPlace has violated your privacy rights or has acted inconsistently with its obligations under the HIPAA Privacy Rules.

revised 3/25/18 2

HEARTPLACE PRIVACY OFFICER

HeartPlace has procedures in place for receiving and resolving HIPAA-related complaints, and, handling other HIPAA and PHI requests and concerns. Such issues are handled by the **HeartPlace Privacy Officer**. You may:

- Request additional restrictions for release of your PHI
- Change restrictions/change contact information
- Request an amendment to your health record
- Request copies of the Notice
- Resolve your complaints (complaints must be directed in writing to the Privacy Officer).

AUTHORIZATION FOR ACCESS AND USE OF SURESCRIPTS PRESCRIPTION HISTORY

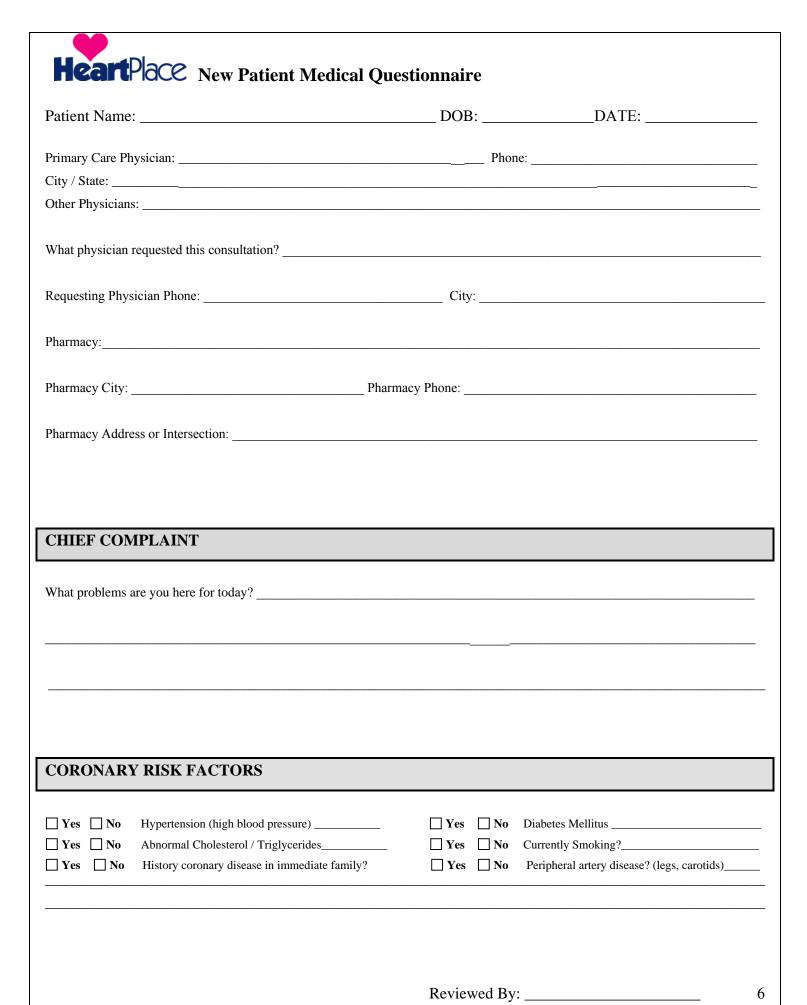

HeartPlace, with your authorization, has the ability to import the last 16 months of your prescription history directly from the Surescripts E-prescribing database. Surescripts is used by most pharmacies and insurance companies to process prescriptions. If you paid cash or did not pickup a prescription, it will not be in the Surescripts database.

The import of Surescripts prescription history is not required for treatment. HeartPlace understands there may be situations, prescriptions, and medical history you do not want to share with your physician. Notifying your physician of all your medical history and currently prescribed medications is critical for proper care.

I hereby authorize the use or disclosure of my individually identifiable health information ("Protected Health Information") as described below in this form (this "Authorization") by Surescripts and the access and use of that information by HeartPlace, P.A. ("HeartPlace").
